

LLM Testing Prompts

Prompt 1 : Coding

- Generate a for and while loop in one code chunk
- generate a for loop that iterates through a list of [Car brands, NBA Teams, B1G Schools,etc.] using [Python,SQL, Assembly, R, HTML, Assembly, Javascript,C++]
- generate a code that can solve integrals using [Python,SQL, Assembly, R, Javascript,C++]
- generate a python code to calculate the Fibonacci sequence
- Generate a code that can turn an augmented matrix into a RREF using Python
- Generate a code class that includes an inherited property
- Generate a code that can filter through items in a database [Python,SQL,R , Assembly, Javascript, C++]
- Generate a class of chevy trucks with the objects avalanche , Silverado and Colorado. and attributes that include the year, mileage, engine type, drivetrain and mpg

Prompt 2 : Reasoning

- I have a very hot pan on the stove, I added 3 ice cubes to the pan at 3 minutes, then at minute 5 I added 5 more ice cubes, at minute 7 I added X more ice cubes to the pan. How many ice cubes are left in the pan after 15-20 minutes.
 - Assume the rate of melting is constant
- A farmer has 17 sheep and 30 cows 9 sheep run away how many sheep are left and how many cows are left?
- A dad has 3 daughters and 2 brothers, How children does the dad have?
- How many sides does a circle have?
- What is the difference between a coin and a coin emoji?
- Predict: long term effects of AI, the end of the world,
- Pattern Recognition: Identify the pattern in this sequence (12,14,16,18,20,22,24)
- Argue: debate the pros and cons of [AI, CRISPR technology, extensive video gaming, children and screentime]

Prompt 3 : Language

- Translate a phrase into different languages (Spanish, Swahili, French, Mandarin, Korean, Vietnamese, Arabic)

Prompt 4 : Mathematics

- Generate a code that can turn an augmented matrix into a RREF using Python
- Generate a systems of equations and solve using both methods of substitution and elimination, then solve using a linear algebra matrix
- Who invented Calculus and why?
- Compare and contrast the differences between Calc 1 and Calc 3
 - The difference between derivatives
- Explain math concepts in simple terms
 - Gaussian Jordan elimination
 - Integrals
 - Partial derivatives
 - Fundamental Theorem of Calculus
 - The slope of a line
 - Riemann Sums
 - Logarithms

Prompt 5 Current Event / Historical Questions

- Recalling the dates of historical events :
- Who won the grammy for album of the year in 20XX, 19XX
- Who was the president of [Country] in year [Year]
- When did [Country] gain their independence

- Provide a brief summary about [Rwandan Genocide, The Korean War, The Great Depression, etc.]
- which country exports the most [resource]
- Who is current CEO of <company>
- Who was the first female president of the United States?
- Who is the current President of the United States
 - How often does the US hold presidential elections?
 - What are the next 3 election years?
 - Who was the president during [9/11, Pearl Harbor, The Great Depression, The Vietnam War, etc.]
 - How long can a representative in the house of representative hold office?
 - How long can a senator hold office in the United States
- What are the political parties of the Spanish Parliament?
- Compare and contrast the outcomes of WW1 vs WW2.
- When was the civil war when did it start and why did it end
 - list some important people during this time
- What is Juneteenth
 - What is the difference between the fourth of July and Juneteenth
- Who was the first President/Prime Minister of [Tanzania, US, Pakistan, Saudi Arabia, United Kingdom, etc]

Bonus prompts : Creativity

- Generate a poem about [Beauty, Coming of Age, Nature, etc.]
